PRICE TWO CENTS

SYRUP OF FIGS

NEVER IMITATED IN QUALITY.

An Excellent Combination.

The pleasant method and beneficial effects of the well known remedy, SYRUP OF FIGS, manufactured by the CALIFORNIA FIG SYRUP CO., illustrate the value of obtaining the liquid laxative principles of plants known to be medicinal laxative and presenting them in the form most refreshing to the taste and acceptable to the system. It is the one perfect strengthening laxative, cleansing the system effectually, dispelling colds, headaches and fevers gently yet promptly, and enabling one to overcome habitual constipation permanently. Its perfect freedom from every objectionable quality and substance, and its acting on the kidneys, liver, and bowels, without weakening or irritating them, make it the ideal laxative.

In the process of manufacturing figs are used, as they are pleasant to the taste, but the medicinal qualities of the remedy are obtained from senna and other aromatic plants, by a method known to the CALIFORNIA FIG SYRUP CO. only. In order to get its beneficial effects and to avoid imitations, please remember the full name of the Company printed on the front of every package.

THE LATEST STEP

Admiral Schley's Appeal Is
Now the Subject of
"Comment."

FIVE CHIEF FEATURES

The Judge Advocate and Solicitor
Hanna Append Their Comments
Upon Demand For a Review.

They Charge the Admiral With
Shifting Ground and Dodging
Main Issues.

Washington, Jan. 31.—The "comments" of Judge Advocate General Lemly and Solicitor Hanna on the appeal of Admiral Schley as submitted to the president by Secretary Long, is less than a third as long as the appeal itself, a fact accounted for by the comparatively few quotations from the court's testimony in the case of the comments. The commentators begin with a statement that Admiral Schley and his counsel have shifted their ground. They say the chief features of the case were "the retrograde movement," "disobedience of orders," "inaccurate and misleading official reports," "failure to destroy vessels of the enemy lying within sight," and "injustice to a brother officer." These matters are all grave. The first was that the finest aggregation of American naval vessels under one command was, by Schley's directions, turned about and headed for Key West, more than 700 miles distant, when within 22 miles of Santiago, where the enemy's ships were. The second was that Schley deliberately and knowingly disobeyed the secretary's order overtaking him in his retrograde movement. The third was that Schley's reason, officially given, for the retrograde movement and disobedience of orders, i. e., "that the flying squadron was short of coal," was not true. The fourth was that for three days some of the Spanish ships lay within reach of the flying squadron and no sufficient effort was made to destroy them. The fifth involves the point of honor. The commentators say:

"Upon all the above named features, believed by us to be the most important, if not the only really important matters into which the court made inquiry, the conduct of Admiral Schley was condemned by that most distinguished tribunal. Admiral Dewey and Rear Admirals Benham and Ramsay united in their findings and opinion upon all of these several points, and they united also in the significant recommendations that no further proceedings be had 'in view of the length of time which has elapsed since the occurrence of the events of the Santiago campaign.'"

The commentators charge that Admiral Schley now ignores all these grave matters and bases his appeal upon unimportant features of the case as compared with the grave matters above referred to, "upon which there was not, and in the face of the testimony could not have been any difference of opinion of the court."

The commentators say that they recognize the fact that Admiral Schley devoted by far the longer part of his appeal to the question of command and consequently give that question a proportionate space in their comment. They declare that the question is between Sampson and Schley both alike interested, and to investigate it fairly both should be heard. Such incidental testimony on this point as came before the court was entirely closed to Sampson. They add: "To determine an important question of this nature, under such conditions, is contrary to the underlying principles of Anglo-Saxon justice. Nevertheless it is precisely what the appeal asks the president to do." It is admitted that the precept was broad enough to have permitted the court to go into this question, but it is recalled that the judge advocate, though expressing a willingness to enter upon it, the court did not deem it necessary or proper to do so.

The comment closes in the following words, bearing on the question of command: "The plain truth of the matter, therefore, developed for the first time under the searchlight of this inquiry, although quite incidentally, is that so far as the Gloucester, the Iowa, the Indiana, the Texas and the Oregon are concerned, not the stroke of a propeller blade nor the touch of a helm, not the firing of a shot, was done under the direction or by the orders of Admiral Schley during this memorable battle."

NEVER BRIGHTER Outlook In the Philippines Is Reported More Favorable.

Manila, Jan. 31.—The general outlook for pacification in the archipelago everywhere outside the island of Samar, has never been more favorable since the original outbreak of the Filipino insurrection than at the present time. The insurgents have been broken up into small bands and are everywhere fleeing for shelter. They surrender daily, are captured or are killed. The policy of reconcentration and the stern measure of closing the ports to commerce have accomplished everything expected of them. General Chaffee still hopes that by the end of February the island of Samar alone will remain not pacified.

Those provinces bordering on the provinces of Batangas and Laguna in southern Luzon have been patrolled by the native constabulary, who have done excellent work and who have received the commendation of Gen. J. Franklin Bell, commanding in those provinces. The members of the United States Philippine commission are proud of this constabulary, which was organized following their suggestion, and the greatest care is exercised in the selection of officers for this force. During the past month 82 military posts have been handed over to the native constabulary.

General Chaffee has taken effective steps to make sure that there will be no friction between the military and civil authorities. The most positive orders have been issued to all military commanders to co-operate in every way with the civil authorities, without relaxing in severity when they have occasion to deal with active insurgents.

Wound Up In a Fight.

Brussels, Jan. 31.—The chamber of deputies here was the scene of a free fight yesterday between the Socialist and Catholic factions. The trouble grew out of proposals to prosecute M. Smet, a Socialist, for a recent revolutionary speech. The disorder began in the galleries, which were eventually cleared by force. Thereafter the uproar was continued on the floor. The Socialists advanced in a body against the benches of the Catholics, shouting taunts and epithets. The deputies finally engaged in fistfights, and the sitting was suspended.

A Serious Visitation

Little Rock, Ark., Jan. 31.—Telegraph and telephone lines are down, railway traffic interrupted and business practically at a standstill as the result of the unprecedented sleet storm in many parts of Arkansas. Communication cannot be had with many parts of the state, and it is believed when belated reports are in that the damage will foot up in the millions. It is the worst visitation of the kind in the history of Arkansas.

Caught In the Ice.

Chicago, Jan. 31.—Held prisoners by acres of crushed ice piled high above the water, the big passenger steamers Iowa and Atlanta of the Goodrich Transportation company, with nearly 200 persons on board, have lain helpless off the Lake View crib within view of Chicago since Wednesday night. Nothing but a westerly wind will relieve the situation. The wind is expected to shift tonight.

Will Not Hang.

Butte, Mont., Jan. 31.—After being confined in the county all for four years and seven months, forty months of which he was under sentence of death, Joseph Abafer, a mulatto, who killed a negro named John Hawkins in this city in 1897, was set free yesterday on the request of the county attorney. All the witnesses in the case are dead or gone. Twice Abafer was sentenced to be hanged.

Can't Enforce Block Signals.

New York, Jan. 31.—Corporation Counsel Rives has decided that the board of aldermen had no authority to pass a resolution requiring the establishment of a block signal system on the New York Central tunnel. Further than this, he said, the board of aldermen had no power over the regulation of traffic on the road.

It Shook the City.

Syracuse, N. Y., Jan. 31.—Ward Doonan took a lighted lantern to inspect a tank of 3,000 gallons of petroleum at the Syracuse chilled plow works last night. The tank exploded, shaking the entire city, breaking many windows and hurling Doonan into the air. Doonan was dangerously hurt. Nobody was killed.

REVENUES CUT DOWN

Ways and Means Committee Recommends
Repeal of Nearly Entire
List of War Revenue Tax.

Tax On Mixed Flour Will Be the
Only Survivor After July 1
If Plan Carries.

Washington, Jan. 31.—The ways and means committee, by unanimous vote, yesterday instructed Chairman Payne to prepare a bill repealing all the war revenue taxes except the tax on mixed flour. The action taken was in the form of a resolution to the effect that the bill should provide for the repeal of the remaining war taxes, to take effect on July 1, 1902, except that the repeal of the duty on tea should go into effect Jan. 1, 1903. Chairman Payne made the following statement on the proposed repeal: "The treasury now has an available cash balance of something over \$174,000,000. It is not likely that this will be increased materially during the present fiscal year, as the treasury is buying bonds at a rate that will use up the surplus to accumulate between the end of the fiscal year, June 30 next. The secretary of the treasury's report estimated a surplus for this year of \$109,000,000, and subsequent results seem to confirm this estimate. The committee therefore thought it was entirely safe to repeal the remainder of the war revenue taxes, amounting to \$68,000,000, and the tax on tea of \$5,000,000, in the aggregate \$73,000,000, at this time. This will still leave a surplus estimated upon this year's receipts and expenses of \$22,000,000 or \$23,000,000 for the year, while we will start upon the next fiscal year with \$174,000,000 available cash in the treasury. The committee deems it wise to have the repeal of the tax on tea take effect on the first of January next in order to enable those, especially retailers and small dealers, who have small stocks of the duty paid goods on hand, to dispose of them before the repeal of taxes takes effect. We can provide a rebate on the tobacco tax and guard against any fraud upon the revenue for the reason that the internal revenue department has this trade under close surveillance and can and will take an account of the stock in the dealers' hands on the first day of July next. But this will be impossible as to teas, which come in as customs duties and of which the government has no account save as they are imported in large quantities by the importers. Continuing this tea tax to Jan. 1 will give us six months' revenue in the next fiscal year upon tea and will make the ultimate reduction for the next year considerably less than \$75,000,000. The bill will be presented to the house as soon as it can be prepared."

WILL NOT SHUT DOWN

Steel Mill Not to Be Hampered As
Last Year.

Pittsburg, Jan. 31.—The Amalgamated Association of Iron, Steel and Tin Workers has just taken a radical step that may have a wholesome effect in avoiding strikes. The organization has made an agreement with the American Steel Hoop company and the Republic Iron and Steel company that the mills of these concerns shall not be shut down next summer pending the wage adjustment. In other words, there is to be no strike, even if a disagreement on wages results. The new scale will be formulated at the annual convention of the association at Wheeling in April. An effort will be made to have the scale extended through three years, which would relieve much of the uncertainty aroused every year by the wage question.

They Were Impressed.

Topeka, Kan., Jan. 31.—Efforts are being made to secure the release of two Kansas citizens from service in the Austrian army. Joseph and Michael Daniel, both of Topeka, were taken for a visit to their native home in Austria. There they were apprehended by the authorities and forcibly placed in the army. The men assert they took out their first naturalization papers before leaving Kansas. The attorney general of the state will take the matter before the state department.

Schley Kept Busy.

Louisville, Jan. 31.—Admiral Schley as the guest of the Louisville Knights Templar had little opportunity to rest yesterday. From 10 o'clock in the morning, when he visited the girls' high school, until he left the Templar ball at the Galt House at midnight, every moment of his time was occupied. The greater portion of the day was spent among children, and the admiral shook hands with about 1,000 boys and girls, who expressed their pleasure by cheering their visitor and presenting him with flowers. Late this afternoon Admiral and Mrs. Schley will leave for Nashville.

CAPITAL NOTES

Our Indianapolis Correspondent Has
An Interesting Budget.

Indianapolis, Jan. 31.—A number of candidates who were here last night were taken entirely by surprise by the action of the state committee in fixing the date, but a few only found fault. Most of them said that they would be glad to have the ticket named as soon as possible, as the sooner they know their fate the more profitable it will be for them. E. E. Neal of Noblesville, candidate for clerk of the supreme court, and Titus McKinzie of South Bend, candidate for superintendent of public instruction, said it would have made no difference to them if the convention should have been held this week. Members of the committee said they had not intended to fix the date until they came here and found the sentiment of many of the party leaders in favor of holding the convention early. This plan it is thought will give all the losers opportunity to forget their troubles so they will have no excuse not to get in line for the fight when the campaign opens. The selection of Whitaker for secretary seems to meet with general approval, as he has been an active and at the same time a conservative party worker. He is regarded by many as a fitting successor for Warren Bigler, who it is conceded was one of the best secretaries the Republicans ever had in this state.

Griffith Dean of Marion, the tallest and slimmest candidate running this year for nomination for a state office on the Republican ticket, spent yesterday in Indianapolis, but left last night for Danville and Terre Haute in search of support from the elusive delegate. Dean is new to most state politicians, but he is making a vigorous fight and he declared last night that he is full of confidence in his ability to land the nomination for attorney general. He has the enthusiastic backing of Grant—one of the strongest Republican counties in the state. The Eleventh district, it is said, will come here strong for him, as it has not had a state office for some time.

J. Smith Talley of Terre Haute, who owns more coal mines than any other man in Indiana, is here attending the joint conference of the miners and operators. Like other operators he says that the coal business has been good in "spots" in this state during the past year, meaning that at times it was good. All the operators are making complaint of the poor transportation facilities offered by the railroads, and they say if there had been plenty of cars that their business would have been fine and that the miners could have been working all the time. The Indiana operators are determined if possible not to pay any more for mining than they have the past year.

J. Harry Miller of Fairmount, who was here today, is a candidate for president of the Lincoln League of Indiana. "Things look mighty good to me," said he in discussing his candidacy. "I don't see how they can beat me now. I know I have been making a good hard fight for the place." Miller's only opponent at this time is Senator Crumbaker of Evansville, who is also making a hot fight. The officers will be elected at the annual meeting of the league at Terre Haute Feb. 12 and 13.

W. C. Van Arsdol of this city, who is chairman of the committee that is looking after subscriptions to the McKinley monument fund from the churches, said today that he thinks the observance of McKinley Sunday will net at least \$2,000 to the fund. "If more churches had observed the day," said he, "of course we would have a larger amount, but as it is we will do well. Many of the pastors objected to taking up the collection, but I don't think there will be any trouble in raising a large subscription in Indiana."

S. R. Artman of Lebanon, speaker of the last house of representatives, was here last night "just looking on," he said. Artman is giving his attention to law more than politics now, although he is not trying to get away from the latter. He says he will not be a candidate again for representative, but there is some talk of him being a candidate for nomination for appellate judge this time.

Governor Durbin has returned to his office at the statehouse. He is looking much better than he did a few days ago, and his friends are not so much concerned about his health as they were. Yesterday afternoon he presided over the quarterly meeting of the state board of charities. By virtue of his position he is president of the board.

Report On Compulsory Education
Was Not So Good As Last
Year.

Indianapolis, Jan. 31.—The quarterly meeting of the State Board of Charities was held yesterday at the statehouse. During the last three months the board has visited sixty institutions in the state. A report of the state agent showed that in the last quarter 43 dependent children had been placed in homes. This makes a total of 655 now in homes. The report on the compulsory education law was not as good as last year, but was satisfactory. There was improvement shown under the new poor relief laws and a further reduction in the number of inmates of poor asylums. The board this year is extending its reports to jails and the Marion county workhouse. So far as the county institutions are concerned there is improvement shown in all.

HEAVY LOSS AT WOLCOTT

List of Heaviest Losers in Flame-
Swept Village.

Wolcott, Ind., Jan. 31.—A resume of the losses by the fire Wednesday foot up \$100,000, with limited insurance. The mischief started in the Odd Fellows' hall over the Spencer Bros. drug store, spreading to adjoining property until it had spent its force. The heaviest losers include: Blake Lumber company, \$30,000; Carson company, general store, \$15,000; Leopold Bros. dry goods, \$15,000; Ferguson hotel, \$12,000; Spencer Bros. druggists, \$4,000; Blake's furniture store, \$4,000; Hinchman's hardware store, \$4,000; Jackson's meat market, \$3,000; W. F. Smith's grocery, \$1,000; Walter Smith, jeweler, \$5,000; and building owned by J. N. Hinch, which included several offices, \$4,000.

Many Witnesses Called.

Bloomington, Ind., Jan. 31.—The trial of John Braman and John Hendricks, well known young men, accused of attempting to murder John Cole, a farmer, last October, was called yesterday. There are 50 witnesses for the state and 100 for the defense. Judge Martin is presiding. The case is attracting widespread interest. Cole was driving after nightfall in his buggy accompanied by his daughter when he was shot. He testified before the grand jury that he recognized Hendricks and Braman.

Oakland City's Loss.

Oakland City, Ind., Jan. 31.—This city suffered a \$50,000 loss by fire yesterday. The loss is fully covered by insurance. The burned buildings were: S. V. Levi, department store; W. H. Stewart, furniture, hardware building material, together with one two and one three-story brick building. The cause of the fire is unknown.

Flight Out of Eighty-Six.

Terre Haute, Ind., Jan. 31.—The street railway company reports a total of 16 men back with the time up when the old men can return. At strike headquarters it was said five did not go back, but that instead three who had returned quit work, leaving a total of eight out of the 86 motormen and conductors who struck one week ago last Sunday.

Will Try Another Tack.

Alexandria, Ind., Jan. 31.—On request of A. C. Carver, attorney for the Madison county branch of the Anti-Saloon League, Deputy Prosecutor Manlove has dismissed all of the 700 affidavits filed recently against Madison county saloon men. Cases of more specific and flagrant violations will be taken up and fought out of the courts.

Knights of Columbus Convention.

South Bend, Ind., Jan. 31.—Monday next will witness the state gathering of the Knights and Ladies of Columbus in this city. Sunday will be devoted to initiating a class of 100 candidates, coming from all parts of the state. The Knights of Columbus is a widely disseminated Catholic order.

The Second Attempt.

Spencer, Ind., Jan. 31.—Joshua Jordan, a wealthy farmer in the north part of this county, is lying near the door of death, having cut his throat with a butcher knife. Several weeks ago he attempted suicide by hanging, but was cut down by his wife.

Horses Lost In Flames.

Wabash, Ind., Jan. 31.—The large barn of Allie Powell, in the northwestern part of the city, was entirely destroyed by fire. There were many head of fine horses in the structure, and six of them were burned to death.

Trainman Killed.

Earl Park, Ind., Jan. 31.—O. O. Knop, a Big Four fireman, fell from his engine here and was instantly killed. He resided in Indianapolis and leaves a wife and two children.

Mass Convention.

The republicans of the City of Seymour, Indiana, will meet in mass convention on the 8th day of February, at the City Building at half past one o'clock for the purpose of electing one committeeman from each of the five wards of the city.

W. H. BURKLEY, Chairman.
JNO. W. CONNER, Secretary.

THE MORTGAGE DEDUCTION LAW.

The case to test the constitutionality of the mortgage deduction law has been advanced and will soon be passed upon by the Supreme Court. The general deduction law which gives the capitalist and money lender the right to deduct from his assessment list his current indebtedness was held constitutional about twenty years ago. There is perhaps no law passed by recent legislatures which has met with such general approval as has the mortgage deduction law which gives the small home owner the same right on April first as his neighbor banker. It is to be hoped that the Supreme Court may find the law constitutional.

If Senator Tillman does not belong to the noisy nuisance class then that class is not represented in the United States senate.

THE call for a mass convention of the republicans of Seymour to select committeemen for the city campaign is found in this issue

WASHINGTON people are laboring industriously to settle the shop strike. When the big concern closed down and the men were out of work they began to see the serious side.

THE outlook for pacification of the Filipinos was never more favorable. The insurrection is expected to be subdued throughout the archipelago, except on the Island of Samar, by the end of February.—Courier-Journal.

NINE states and five territories, including Porto Rico, have made appropriations amounting to \$1,965,000 for special buildings and exhibits at the St. Louis World's Fair. Thirty-four states and territories are still to act and many have the matter under consideration. The state exhibits at the fair will represent at least \$5,000,000 in appropriations.—Globe Democrat

POLITICAL GOSSIP.

W. H. WHITTAKER, of Indianapolis, was chosen secretary of the republican state central committee by acclamation, all the other candidates having withdrawn before the meeting was called. The new secretary formerly resided at Delphi but just prior to his removal to Indianapolis, he was chief clerk at the state prison at Michigan City. He is well equipped and may make a good secretary.

THE state committee has fixed the date of the republican state convention for April 23 and 24.

It is announced that Mayor Geo. W. Caldwell, of Columbus, will be the candidate of the Bartholomew county democracy for representative.

Stock and Fixtures Sold.

Charles Leininger has sold the Converse stock of drugs, together with the store fixtures to Chas. McLain, of Scottsburg. It is understood that the price paid was about \$850. The stock will be moved from here, but whether it will be taken to Scottsburg or not the REPUBLICAN has not been advised.

Revival Meetings.

The meetings at the Methodist church continue with increasing interest. The service last night was full of interest and helpfulness. Services tonight at the usual hour conducted by the pastor, Dr. E. R. Vest.

DO NOT DELAY

The longer you delay in giving your weak stomach the aid it requires, the more serious becomes your condition. Obtain a bottle of Hostetter's Stomach Bitters at once, as it is the best medicine in the world for stomach complaints. It will tone up the system, steady the nerves and cure belching, flatulency, indigestion, dyspepsia and malaria, fever and ague.

FOREIGN BANK METHODS.

The Undeveloped System in Use in Continental Europe.

A bank check is looked upon with suspicion in Italy. Practically no small tradesman would take a check, and none of them keeps a bank account. It was still more surprising to me to find that such a statement would be almost literally true of Paris itself. I was studying the mechanism of the Bank of France under the guidance of one of the officers. We went into one great room in the old building in which there were 200 desks inclosed in wire cages, all empty at the moment. I asked what these were for.

"These cages are for our city collectors," I was told. "When a small merchant borrows from the Bank of France, he does not, as with you in America, borrow a bank credit and have his loan merely added to his balance on the books of the bank. With us the merchant, when he makes a loan, gets the actual money and takes it away. He probably has no bank account with us. He writes no checks. When the loan is due, he does not, as would be the case in your banks, come in and pay his indebtedness with a check; instead of that we send a collector to him, and that collector is repaid the loan in actual currency. Two hundred men start out from the Bank of France every morning to collect matured loans. Several days each month it is necessary to send out 400 men, and on the 1st and the 15th of each month 600 collectors go out."

These collectors were uniformed men, carrying leather pouches, in which they have the matured notes and which are later filled with currency as the collections are made from the bank's borrowers.

I stood at the paying teller's desk as I went farther along in my tour of the Bank of France. As I halted there the man who happened to be at the window at the moment presented a check for 50,000 francs. The money was counted out and handed over to him, stored away in a big wallet, and he passed on. I asked if it were not unusual for a man to draw out so much currency and was told that it was not. It was but another illustration of how undeveloped is the banking system of continental Europe in its uses by the general public.—Scribner's Magazine.

FLOWER AND TREE.

Palms and ferns should never be allowed to stand in a draft.

When moss is seen on fruit trees, it may be taken as evidence of lack of thrift in the trees.

The ideal soil in which to set a plant is one that is moist, without being water soaked, neither too dry nor too wet. Dust is a great enemy of window plants in connection with dry heat. Care must be taken to keep the air moist.

In India the tea plant is naturally a tree, but by means of pruning it is kept so small that it seems to be only a bush.

For setting in a dry soil the plant should be well rooted and stocky, as it must depend on the roots it already has to make a start.

Vines of all kinds flower and fruit freely only after they have reached the top of their support. When they have "arrived," they set about blooming.

Peonies should be planted in October. Once planted they should not be disturbed, but should be allowed to form strong clumps. Thus treated the flowers increase in size and beauty with each succeeding season.

Brain Weights.

The average weight of a Scotchman's brain is sixty ounces, an Englishman's forty-nine, a Frenchman's a little over forty-five. The weight of Dutch, Frisian, Italian and Lapp brains come near that of the Englishman, while the German brain is in many instances heavier. The Polish brain is forty-seven ounces. Among Hindoo and other races in India it is from forty-one to forty-four ounces, but Mussulmans average more and the Khonds, one of the aboriginal races of India, much less—not quite thirty-eight ounces. Traveling toward China, the brain weight of the tribes there settled increases. In Africa the average weight is from forty-three to forty-eight ounces; in America that of the Indian averages forty-seven ounces; in Australia from forty to forty-two ounces.

Origin of Word Gringo.

The word "gringo," which Mexicans apply to Americans when speaking of them with contempt, is said to have had its origin thus: During the Mexican war our soldiers got into the habit of calling the simple Mexican soldiers whom they took prisoners "greenies," to signify their ignorance of things in general and of military tactics especially. The Mexicans retaliated by calling the Americans "greenoes," and this word finally degenerated into "gringos."

Her Smile.

He looked despairingly into vacancy. "I have had my misgivings," he said in a dull, passionless voice, "but now I am sure. Your laugh shows me you are utterly heartless."

She turned pale.

"Heavens!" she cried in terror. "Did I open my mouth as wide as that?"

Candid.

"Do you mean to say that you have not read all of Shakespeare's plays?" "No," answered Miss Cayenne. "To tell the truth, I did not mean to say it. As in the case of most people, the confession slipped out quite by accident."—Washington.

The iron pen mentioned by Job in the book of that name in the Bible is supposed to have been a steel graver used for cutting inscriptions on stone.

Z. T. Sweeney, Commissioner of Fisheries and Game, says that he receives numerous inquiries from over the state as regards the shooting of rabbits. Many do not understand this law. The rabbits are protected only from October 1 to November 10, and this is done only for purpose of protecting quail.

CHANGE OF POSTMASTERS.

Postmaster Wilhelm Will be Succeeded by W. P. Masters Tonight.

There will be a change of postmasters at the Seymour office tonight. Postmaster Wilhelm will be succeeded by W. P. Masters.

Mr. Wilhelm has served four years and one month since his last appointment and has done his work faithfully and well. He has given to the people efficient service and has always been accommodating and courteous to the patrons of the office. In the business of the postoffice he has always been painstaking and accurate, complying strictly with the rules and regulations of the department. Mr. Wilhelm will turn the office over to his successor in splendid shape.

Wm. P. Masters, the new postmaster, needs no introduction to the Seymour people. He has been in business here many years and has won the confidence and esteem of all. That he will make a splendid postmaster no one doubts. He is well equipped for the duties of the office from every standpoint and under him there are no fears but the high standard of the office will be maintained. Ed Rennie will be Mr. Master's deputy. Miss Wilhelm who has been her father's efficient deputy, will remain in the office awhile, until Mr. Masters and his deputy are familiar with their duties.

MARRIED.

LAMBERTSON-WHITE.

Clarence Eldridge Lambertson, sporting editor of the Cincinnati Enquirer, and a Miss White were married at Chicago, January 29. Mr. Lambertson is a nephew of A. D. Eldridge of this city. He is well known in newspaper circles.

Blown to Atoms.

The old idea that the body sometimes needs a powerful, drastic, purgative pill has been exploded; for Dr. King's New Life Pills, which are perfectly harmless, gently stimulate liver and bowels to expel poisonous matter, cleanse the system and absolutely cure constipation and sick headache. Only 25c at W. F. Heter's drug store.

DIED.

HAMER.—The infant child of Mr. and Mrs. James M. Hamer died at 3 o'clock Friday morning, January 31. Burial Friday afternoon.

It is stated that President Loeoe, of the Baltimore & Ohio, has sent circulars to heads of departments to the effect that reduction must be made in the operating expenses of all departments, and changes in both the passenger and freight departments are looked for.

"Ads." Sell Books

Under the system of display advertising in the newspapers and elsewhere the sales of books have been enormously increased, according to statistics compiled by Harper and Brothers. This is confirmed by figures given by the publishers of a recent popular novel. Of the buyers who stated why they bought the book a large proportion mentioned the advertising and reviews, and another considerable number was influenced by persons who had read the advertisements. The same publicity which will sell books will sell other things.

OKLAHOMA TERRITORY.

Greatest Movement of Immigration in that Direction.

That portion of the west comprised in these two territories is the center of interest for the ever-present emigration movement that marks American civilization. The states to the north and south have been drained of their surplus population for a decade to build up these virgin lands, but the process is not complete. The land offices of Oklahoma, outside of the newly opened reservations, have done, during the past summer, the largest business in years. Western Oklahoma lands that were considered fit only for the herder are being taken for small ranches; and the cattle men are nervously watching the destruction of their barbed-wire fences by the advent of the Man With a Plow. Indeed, this is the only portion of western land, outside the irrigated areas, that can be secured for new settlement. While vast tracks are yet open to home-steading in other parts of the west, they are the refuse, the arid, rough, or worthless claims undesired by the settlers of the past three decades. Little wonder, then, that the virgin lands of the Indian territory, capable of producing a bale and a half of cotton, seventy bushels of corn, or forty-five bushels of wheat per acre, should be in demand; or that Oklahoma farms, with almost equal fertility, and which are to be subdivided and rearranged to suit the development of the country and the increasing population, should attract both settlers and investor.

Peopled to a larger extent than almost any other part of the union by native American stock, with the advantages of example in the organization and development of other communities, guided by the knowledge of today and following modern business methods there should be a marvelous future for this region.—From "Oklahoma and the Indian Territory as They Are Today," by Charles Moreau Harger in the American Monthly Review of Reviews for February.

Notice to Taxpayers.

Notice is hereby given to the taxpayers of the City of Seymour that the tax duplicate for city taxes for the year 1901 is now in my hands, and that I am ready to receive taxes thereon. The rate of taxation is as follows:

The general fund, including library fund, \$1.25 on each \$100 valuation of taxable property and 50 cents on each taxable poll.

Special fund 15 cents on each \$100 valuation of taxable property.

SPECIAL NOTICE.

The first installment of taxes must be paid on or before the first Monday in May, otherwise the whole tax will be delinquent and subject to penalties.

Particular attention is called to the fact that the spring payment having been extended to May 1st, gives the treasurer less time to hold the duplicate, and it will be to the interest of the tax-payers to be as prompt as possible in paying the same.

The second installment must be paid on or before the first Monday in November following.

City orders cannot be paid to any person owing delinquent taxes and all persons are hereby warned against purchasing such orders.

The annual sale of delinquent lands and lots will take place on the second Monday in February, 1902, at 10 o'clock a. m.

THOS. J. CLARK,
City Treasurer.

Ely's Liquid Cream Balm is an old friend in a new form. It is prepared for the particular benefit of sufferers from nasal catarrh who are used to an atomizer in spraying the diseased membranes. All the healing and soothing properties of Cream Balm are retained in the new preparation. It does not dry up the secretions. Price, including spraying tube, 75 cents. At your druggist's or Ely Brothers, 56 Warren Street, New York, will mail it.

Greatest Locomotive.

The largest and most powerful locomotive in the world, which was built at Schenectady by the American Locomotive Company, is on its way from the Mohawk Valley to the west, where it will haul heavy freight on the Santa Fe Road, it is known as the 989.

From the end of the tender to the point of the pilot it measures 70 feet. The top of the stunted smokestack is 16 feet above the ties.

On a level track 989 could haul a train a mile and a half long, carrying the harvest of 10,000 acres of wheat. Ten massive driving wheels, nearly as tall as a man and so heavily counterbalanced that they appear almost solid grip 20 feet of track. On these 100 drivers, which gave the name of de-capped to this engine, a weight of 232,000 pounds is carried.

When The World Will be Full.

On the basis of 1,000 people to the square mile there is room for three times as many people in the world as live in it today; and there is no danger of overcrowding for many years to come. To be "full" the world must have a population of 52,000,000,000, and as the rate of increase is only one person per hundred each year it will take one hundred and twenty-five years to bring the population even up to 5,000,000,000. There will then be eighty-three persons to one square mile of earth. Another one hundred years will bring the population 14,706,000,000, or 225 to the square mile, and another century's growth will make it 31,662,000,000, or 609 per mile. It will not be until the middle of the twenty-third century that the world will be "full." In the year 2250 there will be an average of 1,001 persons to square mile, or a world population of 52,000,000,000.

Thousands Sent Into Exile.

Every year a large number of poor suffers whose lungs are sore and racked with cough are urged to go to another clime. But this is costly and not always sure. Don't be an exile when Dr. King's New Discovery or Consumption will cure you at home. It's the most infallible medicine for Coughs, Colds, and All Throat and Lung diseases on earth. The first dose brings relief. Astounding cures result from persistent use. Trial free at W. F. Peter's Drug Store. Price 0 very bottle guaranteed.

The Hon. Leslie M. Shaw, Secretary of the Treasury, by all odds the most picturesque figure that has lately emerged into public view, is the subject of a character sketch in the February Review of Reviews, by Mr. Johnson Brigham, Iowa's State Librarian. Mr. Brigham writes with enthusiasm of Governor Shaw's oratorical gifts, and tells with keen appreciation the story of his rise from obscurity and poverty to a position of highest trust in the national government.

A Deep Mystery.

It is a mystery why women endure Backache, Headache, Nervousness, Sleeplessness, Melancholy, Fainting and Dizzy Spells when thousands have proved that Electric Bitters will quickly cure such trouble. "I suffered for years with Kidney trouble," writes Mrs. Phebe Cherley, of Peterson, Ia., "and a lame back pained me so I could not daess myself, but Electric Bitters wholly cured me, and, although 73 years old, I now am able to do all my housework." It overcomes Constipation, improves Appetite, gives perfect health. Only 50c at W. F. Peter's Drug Store.

McClure's For February.

McClure's Magazine for February is one of the best all-round numbers its editors have got out. The timeliness of the articles, their range of subject and the varieties of short stories make it possible to read the number from cover to cover without monotony.

Two articles stand out for special notice as among the most opportune and readable magazine articles for the month—"Marconi's Achievement," by Ray Standard Baker, and "Grover Cleveland," by William Allen White. In each case both the title and the author's name are sufficient guarantee of good reading on timely subjects. Concerning the Marconi paper, it is of interest to learn that the author of it was the first special correspondent for any paper or magazine to catch Marconi in Newfoundland after his success in telegraphing across the ocean without wires.

THE AMERICAN MONTHLY REVIEW OF REVIEWS

THE AMERICAN MONTHLY REVIEW OF REVIEWS is commended by Statesmen, Professional men and thousands of others prominent in the world's activities, for its fine discrimination in sifting the actual news from conflicting report and the presentation of current events in their just proportion. They comment on its freedom from daily-paper sensationalism. All men and women who want to know what the world is doing find it an intellectual necessity, to judge from the letters received from hundreds. Its editorials are comprehensive, and labor saving to the busy man or woman. Its timely contributions on important topics are by the best-informed writers. Its reviews of other magazines give the best of their best work. It is profusely illustrated.

These letters will enable all thoughtful men and women to judge of its value to them:

PRESIDENT
"I know that through its columns views have been presented to me that I could not otherwise have had access to; because all earnest and thoughtful men, no matter how widely their ideas diverge, are given free utterance in its columns."—Theodore Roosevelt
EX-PRESIDENT
"I consider it a very valuable addition to my library."
—Grover Cleveland
"It is a publication of very great value. I have sometimes found there very important matter indeed which I should not otherwise have discovered."—George F. Hoar, U. S. Senator, Massachusetts.
"I am a constant reader of the 'Review of Reviews,' and appreciate it very highly indeed. I think it a very important part of my library, and practically a necessity for one in public life."—J. B. Foraker, U. S. Senator, Ohio.
"It is one of the best and most satisfactory publications of the day."—Charles W. Fairbanks, U. S. Senator, Indiana.
"I do not have a great deal of time to read magazines, but I take pleasure in saying that the 'Review of Reviews' is among the number which finds a place on my table each month."—James K. Jones, U. S. Senator, Arkansas.

CINCINNATI WEEKLY GAZETTE

20 Page Newspaper. 50 Cts. a Year.

THE WEEKLY GAZETTE, with its up-to-date methods and general excellence, stands today as the most reliable and best weekly published in this territory.

It enters the new year in a most promising condition, and with the determination to double its greatly increased business, makes the most costly free offering ever made by a weekly publication.

Commencing December 1901, every subscriber will receive FREE, once each month with his paper, a beautiful and valuable picture for 12 months. This series is a choice selection of twelve (12) of the best pictures taken from the famous Tonnessen Life Studies and from Austen's multipatinum reproduction in black and white.

They are not ordinary, cheap pictures, but are copyright reproductions, which The Commercial Tribune Company, at a heavy cost, obtained exclusive control of for this territory and are printed by special contract. Their genuineness is guaranteed. Each is 7x9, mounted on a black velours mat 13x15. One can not be purchased at any art store under (\$1.00) one dollar.

A free offer of this value was never before made by a weekly newspaper, and when one stops to consider that he is getting the best and most up-to-date weekly published for only 50 cents a year—and in addition is presented with a set of twelve (12) pictures that can not be purchased for \$85.00, he realizes that we are out for new business and intend to get it, even though it is most expensive.

It is not necessary to dwell on its many special features; they are known as its record as the favorite family journal for over one hundred years is a conclusive testimonial.

In Olden Times.
People overlooked importance of permanently beneficial effects and were satisfied with transient action; but now that it is generally known that Syrup of Figs will permanently overcome habitual constipation, well-informed people will not buy other laxatives, which act for a time, but finally injure the system. Buy the genuine, made by the California Fig Syrup Co.

A Car Load of Scenery.
A feature of the play tonight, "The Span of Life," is the special scenery. The company carries a whole car load of scenery which adds decidedly to the interest of the play. You will enjoy this play.

"Cure the cough and save the life."

Trying to Settle.

The work of effecting a settlement between the B. & O. S. W. and the striking employes is being pushed by Labor Commissioners McCormack and Schmid and President Perkins of the American Federation of Labor and Machinist Representative Collins.

There is a possibility of a settlement tomorrow morning and it is hoped that the conference will bring this result.

At a conference with the labor organizations Wednesday afternoon the commissioners learned the strikers' side of the trouble and at a conference with the B. & O. S. W. officials Wednesday night the railroad company's side was heard. After learning both sides the commissioners began the work of effecting a compromise.—Washington Gazette.

Wheat Crop Damaged.

State Statistician Johnson believes that the Indiana wheat crop has been greatly damaged by cold weather. He said the wheat got a bad start last fall and the winter has been so cold with so little snow that at least 50 per cent. has been killed.

See what Happens!

Listen to a child story:

MARY:—"Did you say your prayers last night?"

ALICE:—"Yes."

MARY:—"Well, I didn't, and I'm not going to say 'em to-night! Nor to-morrow night! Nor the next night! I'm going to stop now for five nights and if nothing happens to me, then I'm never going to say 'em any more."

This is the way children reason:—and some grown-up people, too!

They are all right because "nothing happens!"

Now you probably drink coffee.

How can we make you realize what you are losing in not trying

CHASE & SANBORN'S

"High Grade"

COFFEE.

Nothing happens to you if you don't use it! So it is hard to get you started.

But something happens if you once try a cup! You find the grocer delivers it in an imported, air-tight, parchment-lined bag. You wonder about this. But when you taste the coffee you get a hint. This coffee is only roasted on order; it is then hermetically sealed as it comes from the roaster; it is packed under the Chase & Sanborn Seal warranted trade-mark, and is guaranteed to be highest quality.

Try it just once!

The Thompson Estate.

The auditor's office has just completed making a transfer on the records of the landed estate of the late Archibald F. Thompson, to his children, under the provisions of his will. There were 4,970 acres of land thus disposed of by Mr. Thompson. It was disposed of by parcels, and tracts as nearly equal as possible among the children of the deceased. The larger part of this land is located in this county, though a good part of it is located in Jackson county.—Columbus Times.

We having just bought the store of M. E. Flynn, corner Brown and Poplar streets, would solicit the patronage of the public generally. We keep everything usually kept in first class grocery stores; also a full line of fresh meats. Goods delivered to any part of the city.

A WORLD WIDE VICTORY.

The recent victories of the house of Baldwin at the Paris Exposition give to its products a value and prestige not possessed by any other American piano. The grand Prix awarded the Baldwin Piano is an honor coveted by all the manufacturers of the world, but which has never been bestowed upon any American piano except the Baldwin. The Silver Medal awarded the Hamilton pianos and organs shows the estimate of the International Jury of these Standard Instruments. The fifteen other awards [gold, silver and bronze medals, and honorable mentions], serve to emphasize the Great one, and show the high value placed upon the details of construction and the inventions embodied in these instruments.

E. M. YOUNG, Representative, 124 S. Chestnut St. Seymour.

ONE DOLLAR A YEAR
But at any price **THE BEST**

SUNNY SOUTH

Fifty Cents a Year—Less Than a Penny a Number.

THE SOUTH'S LITERARY WEEKLY
Published at Atlanta, Ga.—Circulation Over 50,000.

The **SUNNY SOUTH** is the Great Literary Weekly of the South. It is devoted to Literature, Romance, Fact and Fiction, and gives the best of all that is current in its field. Among its contributors the most noted southern writers appear—Joel Chandler Harris, Harry Stillwell Edwards and others of growing fame. Serial stories from Anthony Hope, Maurice Thompson, Sidney R. Crockett, Mrs. George Corbett and Arthur W. Marchmont have appeared, and others are in waiting from the pen of authors of national note. A short story contest brought out nearly five hundred splendid short stories, all worthy a place in the **SUNNY SOUTH**'s reading columns. Other contests are contemplated that will successfully exploit the ripening field of talent that only needs such fostering to illustrate the wealth that is shy to assert itself.

The **SUNNY SOUTH** teams with the life of the great south. The genial sunshine warms everything into activity, and the season is never cold enough to check the hand of industry. The paper comes fragrant with the breath of the magnolia and pine, and gives out the very air of the orange, palm and bay. The beauty and pathos, the romance and mystery of the land where the corn stores up the golden sunshine and the cotton whitens in the moonlight, will be given in the well-filled columns of this fascinating weekly.

The subscription price is **Only Fifty Cents** a year, alike to all persons, agents, newspapers, postmasters and every one else. Clubs of five, accompanied by the full \$2.50, entitle the club reader to the paper one year gratis.

Send on a Postal Card the names of six of your neighbors who would appreciate the opportunity to read a copy of The Sunny South, and one sample will be mailed free. You can get your club of five out of these very people.

The **SUNNY SOUTH** enters over 50,000 American homes now; and during 1902 is sure to be welcomed in fully as many more homes, as the great weekly feast of good things, the Southern Literary Weekly, whose columns for 1902 will be the most readable of all the papers that come to you.

Itching Scalp.

Scald Head and the most Violent Forms of Eczema and Salt Rashes Promptly and Thoroughly Cured by Dr. A. W. Chase's Ointment.

Among small children, scald head and similar itching skin diseases are most prevalent, and the worst feature is that these ailments, which are apparently trivial at first almost invariably develop into chronic eczema if neglected.

There is but one treatment that physicians are unanimous in recommending for scald heads and eczema, and that is Dr. Chase's Ointment, the great antiseptic healer. It promptly stops the distressing itching which accompanies these diseases and positively produces a thorough and complete cure.

Mr. J. H. Grant, 716 Joseph Chapman Avenue, Detroit, Mich., writes:

"For three years I have been troubled by an intense itching on my body. So terrible was it at times that I could get no rest night or day. I tried all kinds of ointments and blood purifiers, but could get no relief. Mr. H. A. Nicolai of 379 Division Street recommended Dr. Chase's Ointment. A few applications stopped the itching and I have felt nothing since."

Baby Eczema.
Mr. F. S. Rose, of 133 Sixteenth Street, Buffalo, N. Y., writes:

"Our baby boy suffered for some time with that wretched eczema, and we were unable to find anything to cure or even relieve his pain. A few applications of Dr. A. W. Chase's Ointment stopped the itching and healed the sores, and a bright, natural skin now takes their place."

AVERTED A TRAGEDY.

The Nerve Displayed by Daniel O'Connell at a Critical Moment.

Daniel O'Connell, the famous Irish agitator, had a contempt for physical danger. On a certain occasion a meeting had been convened, and a large crowd assembled in a room on the first floor of a building in a small city in Ireland.

O'Connell was about to address the people when a gentleman, pale with fear, made his way to the platform and hoarsely whispered:

"Liberator, the floor is giving way! The beams that shore it up are cracking, and we shall fall through in a few minutes!"

"Keep silent," said O'Connell. Then, raising his voice he addressed the assembly:

"I find that the room is too small to contain the number who desire to come in, so we must leave it and hold the meeting outside the building."

At this a great rose and went out, but the majority retained their seats. Then O'Connell said:

"I will tell you the truth. You are Irishmen, therefore brave men. The floor is giving way, and we must leave this room at once. If there is a panic and a rush to the door, we shall all be precipitated into the room below, but if you obey my orders we shall be saved. Let the 12 men nearest the door go quietly out, then the next 12, and so on till all have gone. I shall be the last to leave."

His instructions were obeyed to the letter, and he waited, patient and calm, till all had gone out in safety. Then he walked quietly across the rundering, cracking floor, reaching the door just as the shattered beams gave way. And thus, by the force of his strong will, a terrible accident was averted.—Exchange.

A LIVE COAL TRICK.

Teaches Natural Law, Yet Has All the Appearance of Magic.

No one would suppose that it is possible to hold a glowing coal on a piece of linen or cotton without burning the cloth, but that such can be done is easy for anyone to prove, and at the same time the experiment teaches an important natural law. Every child knows that the telephone and telegraph wires are made of copper because that metal is a good conductor of heat and electricity, which is only another form of heat. If a poker is heated in the fire, you pick up a cloth to hold the outer end, although it has not been in the fire, because experience has taught you that the heat is conducted through the metal from the fire to the outer end.

This experiment with the flaming coal is based upon this principle and the additional one that linen and cotton are poor conductors of heat. Take a globe of copper and draw a piece of cloth tightly over it so that there is not a wrinkle at the top. If the linen or cotton is closely woven, the wrinkle is all the more certain. Then, holding the cloth tightly in place, you can safely put a glowing coal on top of the cloth, and, while it burns fiercely, the cloth will not even be scorched.

The reason is that the great conductivity of the copper draws the heat of the coal before it can burn the cloth. Do not try this experiment with a good handkerchief first, for if the cloth is not tightly drawn it may burn, but take some worthless piece of linen or muslin, and after you are certain of your experience you can astonish your friends who do not know the secret.—Washington Post.

That Date Engaged.

Some time ago a rich but ignorant woman wrote to the weather bureau in Washington saying that she was to give a lawn party on a certain day, and asking the bureau to see that it was clear on that day. To make her communication more impressive she enclosed a list of the names of several prominent people she intended to invite.

"I entered into the humor of the thing," said the weather chief, "and sent her an answer to the effect that the afternoon she designated had already been bespoken by a poor washerwoman who wanted to obtain some rainwater with which to wash clothes, and that on this account I could not possibly make it clear on that date."

Making a Billiard Ball.

It requires skilled labor to turn out a billiard ball. One half of it is first turned, an instrument of the finest steel being used for the work. Then the half turned ball is hung up in a vat and is allowed to remain there for nearly a year to dry. Next the second half is turned, and then comes the polishing. Whiting and water and a good deal of rubbing are requisite for this. It is necessary in the end that the ball shall, to the very fraction of a grain, be of a certain weight.

His Comparison.

When you eat, be careful to leave off hungry, is advice often given at the dinner table, but seldom received in an obedient spirit.

The caution was repeated not long since to a youngster of vigorous appetite.

"Pshaw!" he said. "You might as well tell me to wash my face and be careful to leave off dirty."

Potatoes.

Potatoes as a food vary in value according to the way they are cooked. Roasted they are in the best form for eating. Potatoes eat potatoes together with milk and are correct in principle, as the milk furnishes the elements lacking in the tubers.

His Dream.

Hogan—Do you believe in dreams, Mike?

Dugan—Faith, an I do! Last night I dreamed I was awake, an in the morning me dream kem throe.
